Calling in of Loans.

NEW YORK, May 31.—There was a rather general calling in of loans today by banks which had heavy disbursements to make to-increase. One large bank that put out \$15.000,000 last Monday recalled a large part of it to-day, and the consequent shifting of loans by other banks and trust companies advanced the rate to 3½ per cent and then to 4, but it cropped to 3 per cent before the final quotation.

Stock Market Letters.

James A. Pollock & Co., stock and grain brokers, 5 West Second South street, make public the following letters on the stock mar-

public the following letters on the stock market.

Dick Bros. New York, say: "Market has been quite strong today, showing dullness and irregularity at first, but becoming more active and directly strong in the late trading. Again there seemed to be a limited supply of stocks for sale. Local tractions had an advance of what looked liked short covering. The market closed very strong in tone." Marshall, Spader & Co., New York, say: "Market strong, advancing under leadership of Union Facifics and Tractions. Broader activity promised, caused by belief that peace negotiations will be shortly under consideration. Revolt of Russian troops in Manchurla, though not confirmed, would hasten events. Government crop report rather more favorable than expected in view of recent weather conditions.

events. Government crap report rather more favorable than expected in view of recent weather conditions."

Hutton, New York says: "The great Japan-ses victory, with prospects of peace, caused a strong and optimistic feeling to aprend in our security market, as well as those abroad. The heavy increase in the value of cotton and grain to the farmer is another consideration. A stubborn short interest still exists here and higher prices can be looked for before any material recession occure."

Logan & Bryan, New Tork, say: "Market is closing strong and bigher in all departments in early dealings the list was quite irregular, the market subsequently showing better form on what looked like short covering in Union Pacific, Amalgamated and Reading. The old story of an increase in the Union Pacific and Reading dividends and placing Southern Pacific common on a 2 per basis helped the general market. The list at the close acts well. Considering the masse we have had, the market should do better."

T.A. McIntyre & Co. New York, say: The market is narrow and largely professional, but there is a much better feeling prevailing generally, and the indications point to a continued good traders' market. Unless some disaster overtakes the crope, the tendency will be gradually highert. Some large buying orders in the market for Reading, Union Pacific, L. & N., Copper, Pennsylvania, Central and Eris by some of the largest and most prominent interests." New York Metals.

New York May 31.—The London tin market was easier today, closing at 1125 5a for spot and fills 6a for futures. Locally the market was quiet, but a shade lower in sympathy with spot, which was quoted at 13.55230, 20. Copper was higher abroad. London closing at 65 2a 2d for epot and 65 5a for futures. Locally copper remains inchanged, with lake and electrolytic quoted at 315.00 and casting at \$1.50.

Grain and Provisions.

CHICAGO, May 31—The wheat market was weak the entire day. At the start July was off 167%c to 167%c at 87%c to 57%c. The principal influence contributing to the initial decline was the almost perfect weather conditions prevailing over the entire wheat belt. Official predictions for tomorrow were for fair weather, with violes temperature.

as a result of a sharp advance in the price of May wheat at Minnespolis. In Chicago the price of July advanced to \$3540532c.

Sentiment soon became decidedly bearish again, the weather bureau crop report causing renewed weakness. The report, while admitting damage, did not suggest any radical decline in the condition of wheat during the month of May Late in the day heavy profit-taking in May following a break at Minneapolis caused additional weakness here. The market closed at the lowest point of the day, with July at 355c.

Corn for May delivery closed today at 60c a bushel, a grin of exactly 2c, compared with Monday's final quotations. The sharp advance was an incident of the final chapter of what is generally believed to have been a successful deal by several prominent traders who are said to have had a hand in "squeezing" May shorts. From the start there was a good demand for the May option. The busing was mostly by commission houses, and was apparently for the account of customers who were short on May corn and who had until the last minute hoped that they might get out comparatively easy. At the opening May was up 1c, at 152c. Within the last few minutes shorts bid up the prices to 60c. The close was at the top. Other options were affected by the strength of May. \$6,000 Adver-

We collected an old debt for Mr. L. C. Mariger of Salt Lake City yesterday and also one for J. O. Zeigler & Co. of Chicago.

Both claims were elx-year-old judgments. We can collect some for you if you turn them in. We are the most successful Collection Agency and spend more money

for advertising than any agency in the entire world.

We are spending over \$600.00 this year for advertising. If we did not know we could collect Bad Debts we would not be spending all this money telling the world of our ability.

This ad will bring hundreds of claims to our offices and we are just as sure to make hundreds of dollars in commissions thereon. Write or call
